

Overview

The firm has gained a reputation as leaders in this area due to the expertise shown in every transaction we handle. With particular emphasis in secured project financing, the firm continues to provide advice and guidance on the securities structure and registration process in transactions to its various clients including sponsor/project companies, lenders and credit agencies.

Over the years, the firm has been intrinsically involved in advising clients in project financing transactions across the various sectors of the Nigerian economy, and has severally advised from the project sponsor perspective and from the financier's perspective.

Our experience in this regard spans across the oil and gas, power, health and infrastructure sectors of the Nigerian economy.
